

Ahmed Hassen Alzahrani

Network Support | PMO | Data Analysis

Jeddah, Saudi Arabia | +966 57 012 3080 | azsaadi99@gmail.com | linkedin.com/in/ahmed-alzahrani-5218a2245

PROFESSIONAL SUMMARY

Information Systems graduate with practical experience in project coordination, business operations, reporting, and document control gained through managing a self-operated business. Skilled in maintaining project and procurement documentation, monitoring action items, coordinating stakeholders, and preparing structured reports using Excel and Power BI. Recognized for strong organizational skills, attention to detail, and the ability to manage multiple priorities while ensuring accurate record keeping and timely follow-up. Seeking to contribute to a PMO, project controls, or project support function.

CORE COMPETENCIES

PMO & Project Coordination: Project Coordination | Action Tracking | Progress Monitoring | Stakeholder Coordination | Project Documentation | Meeting Support

Reporting & Controls: Status Reporting | Document Control | Data Validation | Issue Tracking | Management Reporting | Record Management

Technical Skills: Microsoft Excel (Advanced) | Power BI | Power Query | PivotTables | XLOOKUP | Data Analysis | Microsoft Office Suite

Procurement & Administration: Purchase Requests | Quotations | Purchase Orders | Invoice Tracking | Supplier Coordination | Payment Follow-Up

PROFESSIONAL EXPERIENCE

PMO & Operations Coordinator (Self-Employed)

Jeddah, Saudi Arabia | Mar 2023 - Present

- Coordinate daily business operations and stakeholder communications, ensuring timely follow-up on actions, documentation, and outstanding requirements.
- Maintain and control business records, including quotations, purchase orders, invoices, payment records, and supporting documentation.
- Develop and maintain Excel-based trackers to monitor transaction status, documentation progress, and operational activities.
- Prepare periodic status updates and operational reports to improve visibility of ongoing activities and support informed decision-making.
- Coordinate with suppliers and service providers to track deliverables, resolve documentation issues, and complete agreed actions.
- Support procurement-related activities by managing quotations, supplier information, purchase documentation, and transaction records.
- Maintain organized filing systems and document repositories, ensuring data accuracy, confidentiality, and ease of retrieval.
- Perform data validation and quality reviews to keep business records complete, accurate, and current.
- Apply strong planning, organization, and multitasking skills while managing multiple activities and priorities concurrently.

ACADEMIC PROJECTS

Business Reporting & Data Analysis Projects

King Abdulaziz University

- Developed dashboards and reports using Power BI to visualize business and operational data.
- Applied Excel functions, PivotTables, and data-analysis techniques to organize and interpret information.
- Participated in system-analysis and business-process-improvement assignments as part of Information Systems coursework.
- Prepared presentations and reports to communicate project findings and recommendations.
