PROFESSIONAL SUMMARY

Information Systems graduate with freelance experience since 2023 in point-of-sale (POS) software deployment, workstation setup and peripheral installation. CCNA-certified, with advanced Excel skills for transaction tracking, data validation and operational reporting.

PROFESSIONAL EXPERIENCE

Freelance POS and IT Equipment Setup

Self-Employed | Jeddah, Saudi Arabia | 2023 - Present

- Installed POS software and IT equipment for 30+ client stores and 5 personally owned stores.
- Selected and sourced computers, printers and scanners based on store requirements and budget, coordinating supply with vendors.
- Automated attachment retrieval across 5 years of Gmail correspondence using a self-built tool with local saving and CSV/JSON indexing.
- Maintained Excel registers for quotations, purchase orders, invoices and payments; matched records and flagged incomplete data for review.

TECHNICAL SKILLS

POS and Endpoint Setup: POS software deployment, workstation setup, printer and scanner installation, hardware selection and supplier coordination.

Networking Fundamentals (CCNA): TCP/IP, IPv4/IPv6, subnetting, LAN/WAN, routing and switching, VLANs, DHCP, DNS and wireless networking; foundational knowledge.

Microsoft Excel Advanced: Power Query, PivotTables, XLOOKUP, SUMIFS, data validation and structured trackers.

Data Analysis and Reporting: Data cleaning, record reconciliation, data quality checks, transaction tracking and operational reports.

PERSONAL PROJECTS

DAFFA: Develop and review a Windows POS application covering sales, inventory, purchasing, recipes and management reports, using AI-assisted development.

Email File Finder: Developed a Gmail attachment search and review workflow with editable folder classification, duplicate handling, local saving and CSV/JSON indexing.
